THE SHS EXPERIENCE

SUPPLY

SUPPLY | Personalised Service

Our Account Managers provide expert support to help you select the right handling equipment. Need a Trade Account? We'll set up a personalised Portal for quick and easy ordering with hub management.

CUSTOMER PORTAL EXAMPLE

The screenshot displays the SHS Customer Portal interface. On the left is a navigation menu with links: Dashboard, My Orders, Bulk Account Orders, Orders Pending Approval, My Products, Addresses, Account Details (highlighted), and Logout. The main content area is divided into two sections. The 'Account Details' section on the left contains form fields for 'First name', 'Last name', 'Display name', 'Email address', 'Password change', and 'Customer name', each with a 'Save changes' button at the bottom. The 'Dashboard' section on the right provides an overview of the account, including a 'Total Account Balance' of £0.00, 'Orders Pending Approval' of 0, and 'My Products' of 0. Below the dashboard, there is a 'My Products' section showing three product categories: 'LIFTAK' (forklifts), 'LIFTAK' (forklifts), and 'LIFTAK' (forklifts).

SERVICE & REPAIR

MAINTAIN

MAINTAIN | Keeping Your Business Moving

Our nationwide team of engineers provide expert servicing, repairs and LOLER inspections on most major brands of equipment, with a 98% first-time fix rate and extensive spare parts to keep your business moving.

APPROVED PARTS

Genuine SHS parts ensures quality and compatibility, extending your equipment's lifespan and performance.

SHS SERVICE PLANS

Protect your equipment with regular servicing to PUWER standards.

Service Packages include:

LIFTEK
DESIGNED BY SHS

LIFTEK CAGEMOVER

Moving roll cages that weigh 500kg or more can pose significant manual handling risks. The LIFTEK® CAGEMOVER offers a safer, more efficient solution for transporting heavy roll cages, whether laden or stacked empty.

IMPROVED SAFETY

Transfers the weight of the cage from the operator, reducing the risk of strains and sprains and enhancing worker safety and wellbeing.

MAXIMISED EFFICIENCY

Streamlines cage movement for faster transport and less time spent on manual handling.

TRANSFORMING CAGE MOVEMENT

SAFER. FASTER. SMARTER.

VERSATILE ACROSS INDUSTRIES
Retail | Wholesale | Logistics | Distribution | Transportation

 **MADE IN
BRITAIN**

WHY LIFTEK® CAGEMOVER?

-  Enhances workers safety and improves wellbeing
-  Increases productivity, minimises downtime
-  Reduces operational costs by reducing damage

CAGEMOVER
IN ACTION.**

FEATURED CASE STUDY

SAFER MOVEMENTS FOR THE FOOD & DRINK SECTOR

A major retailer needed a safer, more efficient way to move goods across its Food & Drink operations. SHS responded with a bespoke solution.

THE CHALLENGE: Streamline movements of loaded roll cages on tail lift trucks, empty cages in warehouses and distribution centres, while also assisting in-store advisors with transporting goods between storage areas and the shop floor.

THE SOLUTION: A custom designed LIFTEK® CAGEMOVER met these varied needs, reducing manual handling risks while enhancing worker safety and well-being. It also minimised damage to cages and goods, providing a clear return on investment through lower repair and replacement costs.

We expect to see a 50% reduction in cage moving incidents.”

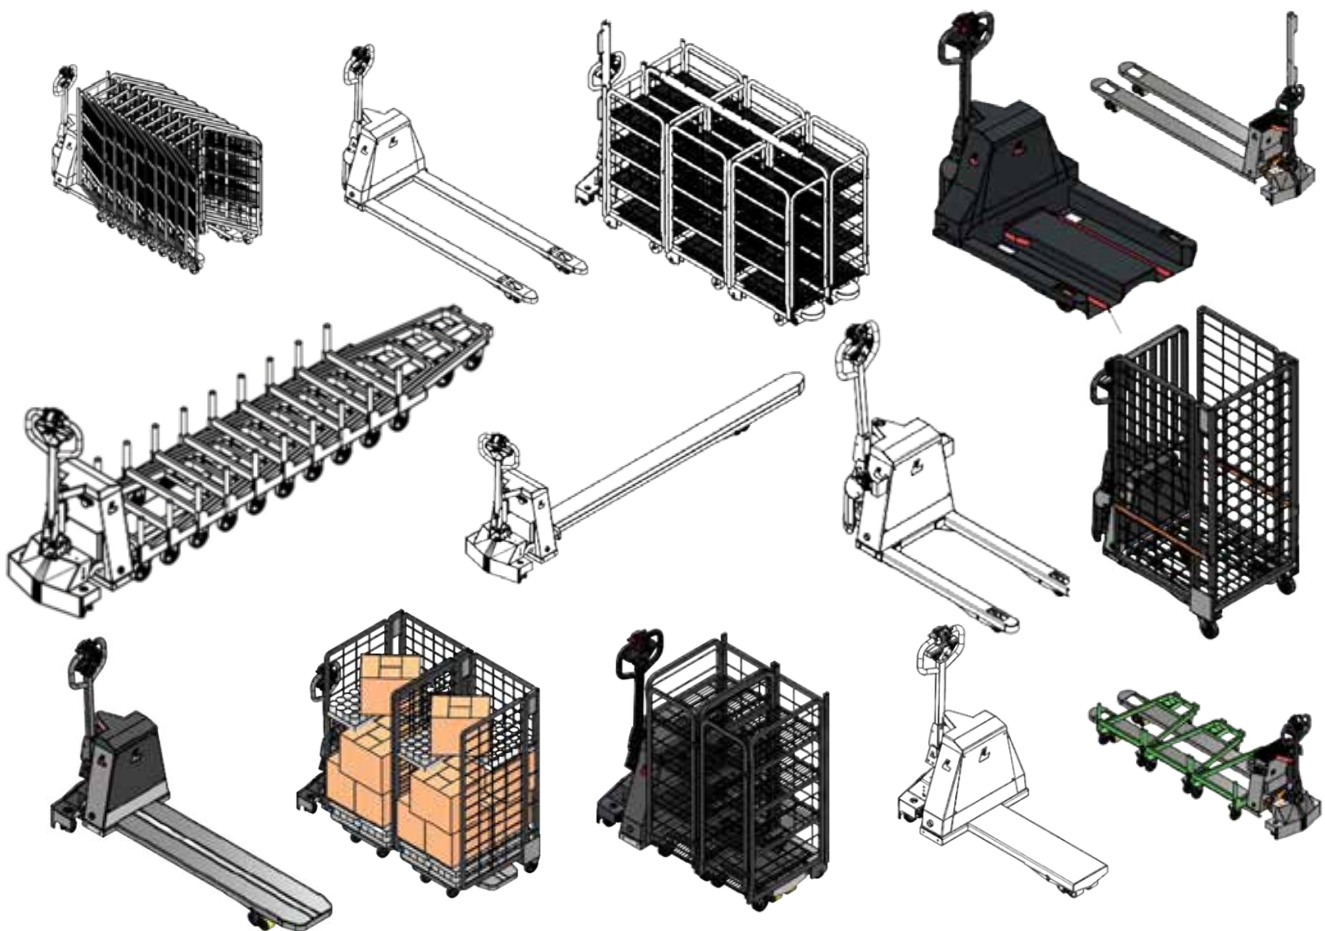

UK's leading food & drink wholesale distributor

BESPOKE CAGEMOVERS

We design bespoke CAGEMOVERS tailored to the unique logistic challenges of various industries.

SPECIALIST MATERIALS HANDLING

We understand every business has unique challenges. That's why we design bespoke solutions to move goods safely, efficiently, and precisely, ensuring seamless integration into your operations.

IMPROVED SAFETY

Safety is a priority. Our bespoke solutions minimise risks, reduce workforce strain, and ensure compliance with health and safety regulations.

MAXIMISED EFFICIENCY

A well-organised, safe work environment boosts productivity. Custom-built equipment streamlines workflows, reduces manual labour, and minimises delays.

FEATURED
CASE STUDY

IMPROVING HANDLING OF FRAGILE MATERIALS

When handling fragile, oversized materials like doors and glass panes, safety is crucial. For a leading PVC distributor, this was a daily challenge, especially with the need for faster warehouse operations and smooth deliveries. Manual handling posed risks of damage and injury, highlighting the need for a tailored solution.

THE CHALLENGE: The client faced handling large glass panes and doors without risking scratches, cracks, or breakages. Manual handling caused delays, particularly during transfers to drop tail-lift trucks, and put employees at risk of strain and injury. A bespoke solution was required to improve safety, efficiency, and support high-volume operations.

THE SOLUTION: SHS collaborated with the client to design bespoke lifters that securely grip and stabilise fragile and heavy materials, preventing damage and supporting manual handling. The lifters were easy to manoeuvre, reducing operator strain and improving workflow efficiency. Adaptable to various item sizes the solution enhanced safety and scalability, streamlining operations.

SPECIALIST MATERIALS HANDLING

Here are some examples of
bespoke solutions delivered:

SCISSOR LIFT TABLES

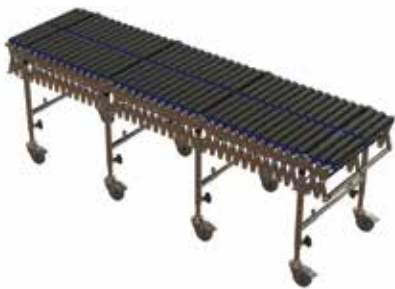

LIFTERS

VERSALIFT
