The Only Rough Terrain Straddle That Lifts Itself and the Load

The Rough Terrain Straddle Loader is a game-changer for solo deliveries – lifting both palletised goods and itself into and out of delivery vehicles with no need for liftgates, ramps or pallet jacks. Built for demanding environments, it handles up to 1,200 kg with ease, combining electric traction, edge-sensing safety and extra-large wheels for smooth operation on uneven ground.

- ✓ **Lifts pallets and itself** - eliminates the need for tail lifts, ramps or pallet trucks.
- ✓ **Handles up to 1200kg solo** - enables efficient one-person deliveries.
- ✓ **Powerful electric motor** - effortless control, even on slopes or rough surfaces.
- ✓ **Advanced safety sensors** - edge detection and braking system for safer loading.
- ✓ **Remote control operation** - precise handling from a distance.
- ✓ **Built for rough terrain** - 167% larger wheels and straddle support legs for stability.

MODEL	0000
Manufacturer	LIFTEK®
Type of Operation	Pedestrian (remote control)
Power Source	24V AGM battery (rechargable)
Lift Mechanism	Hydraulic self-lifting
Drive System	Electric traction drive
Safety Features	Double safety edge sensors, auto-braking
Suitable Pallet Width	Typically up to 1,220mm (48")
Lifting Height	Approx. 1500mm
Vehicle Bed Height	Up to approx. 1320mm
Machine Weight	Approx. 420-430kg
Wheel Type	Heavy-duty rubber, large diameter for terrain
Ground Clearance	Enhanced for thresholds and uneven ground
